

VOLUNTARY WATERING RESTRICTION NOTICE

As many of you are likely aware, Colorado is experiencing a state of drought which directly impacts the availability of water. As an initial conservation measure the following watering schedule for all residential and commercial customers is effective immediately.

Should this measure prove insufficient, further measures may be necessary as the summer progresses. Additional action by the Board could include fees and more stringent watering restrictions - however, the District hopes that such drastic measures will not prove to be necessary.

Please encourage your District neighbors to share the conservation effort... we truly appreciate your support!
