

# How to Read Your Water and Sewer Bill

## Account Number

This is the 4-digit number associated with this service address; please note that old/previous account numbers included an extra "0" at the beginning.

## Usage Chart by Billing Period

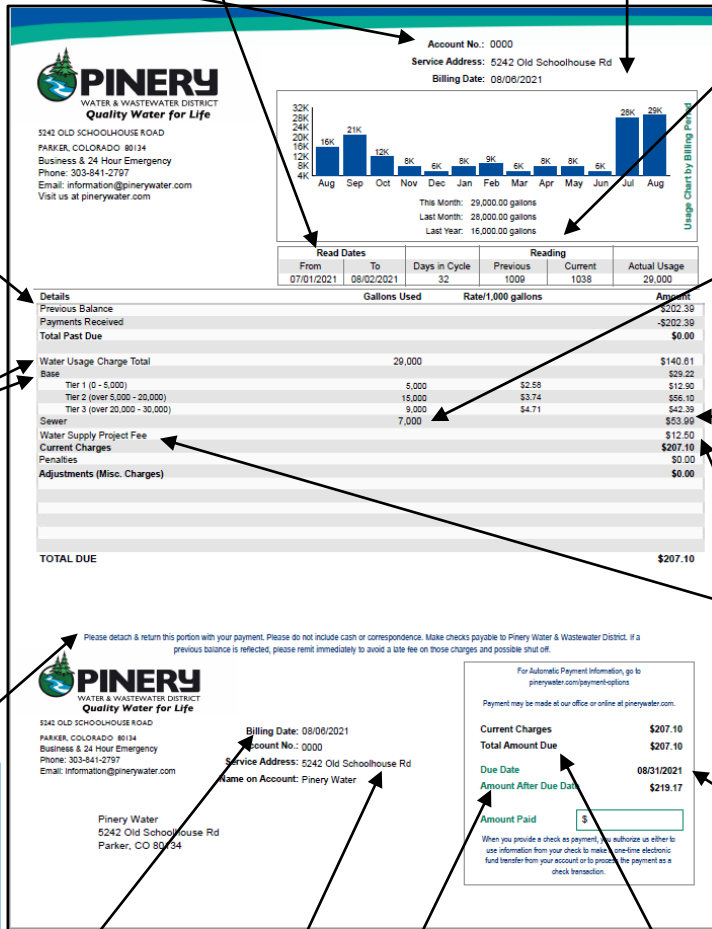

This graph represents water usage, per billing period, in 1,000-gallon increments. Please keep in mind that we bill out a month behind and the information you are looking at for one month reflects water usage for the previous month. Example: the usage shown for the August billing period reflects water usage in July. Please see the Read Dates to verify what month the usage is for.

## Meter Readings

These numbers represent the actual, present and previous readings from your water meter. To determine your consumption, shown in the 'Actual Usage' box, subtract the previous reading from the present reading.

## Balance Forward

This shows the amount of the charges from the last billing period less any payments received. If you paid the amount due your balance forward will be \$0.00.

## Water Service Charges

This charge has two components – the base rate and the volumetric rate. The base rate stays the same every month and the volumetric rate rises as you use more and more water. Please visit the District website to see the current Rates and Fees Schedule.

## Sewer Service Charges

This rate is based on Average Monthly Winter Water Use (Nov-Feb).

- 0-5,000 gallons-\$36.75
- Over 5,000 gallons-\$53.99

(Average Gallons will appear on every bill on the sewer line.)

## Water Supply Project Fee

This is a flat monthly fee that was established by the Board in 2011 to fund current and future renewable water projects to decrease the District's dependence on its non-renewable water sources.

*\*\*Please note that some residents may also see a Groundwater Protection Fee on their bills. This is a flat fee each month to those properties located in the Cherry Creek Alluvium. The District's most precious water supply is in this alluvial system and this fee recoups the extra cost to the District to buffer the alluvium from development. Go to our website for a map of the Groundwater Protection Zone.*

## Payment Stub

Please detach and return with your payment. The District offers several bill pay options to help with paying your bill quick and easy. Please visit our website at <https://pinerywater.com/pay-options/> for more information.

## Date Bill Printed/Billing Date

This is the date your bill is printed and/or usage charges are applied. It is typically mailed to you within 2 business days of printing.

## Amount Due After Due Date

This is the Amount Due plus the late payment fee of \$10 plus 1% per month of the past due balance. This amount applies to payments made after the due date only!

## Service Address

This address should match the location being billed for water service. Some customers pay bills for more than one address.

## Amount Due

This is the sum of total water charges, total sewer charges and any balance forward.

## Due Date

This is the date on which your payment is due to the office.
