

MARCH 2024

PINERY PIPELINE

From your Board of Directors

Walker Reservoir Update

The new Walker Rd. Reservoir, northwest of Franktown, is nearing completion. This project is being built with our partners in the Cherry Creek Project Water Authority (CCPWA), Castle Rock Water, Cottonwood Water and Sanitation District, and Inverness Water and Sanitation District. The reservoir will be filled from a combination of alluvial and Denver Basin wells. When needed, the water that is stored in the reservoir will be discharged into Cherry Creek by the project pump station to be picked up downstream by project members. There will be 4 wells filling the reservoir as well as natural precipitation.

The Authority contracted with HPM to complete the reservoir construction in August of 2021 for approximately \$11.6 million with a current project contract of \$12.2 million. Pinery Water and Wastewater District's portion of the project is \$5.9M. The project is now scheduled for partial completion, with the ability to store water, in March, with final completion in May.

What does this mean for our District?

- Greater resiliency for our water supply.
- Less demand for our deep wells, which are in non-renewable aquifers and expensive to operate.
- More flexibility during peak demand periods.

If you are interested in joining the Water Efficiency Task Force, please contact us at the office (303-841-2797).

As always, any other comments or questions can be directed through the website <https://pinerywater.com/>.

Please join us at our District Office for our monthly held Board Meetings at 6:00pm on the 3rd Wednesday of each month.

Upcoming Board Meetings will be held at 6:00pm on

Wednesday Mar 27, 2024

Wednesday April 17, 2024

Garden In A Box

Maybe you participated in last year's Garden in a Box program. Or maybe you've decided that this is the year you'll finally get your yard in shape – but how can you get the gorgeous, colorful garden you've always wanted without paying the professional price tag and doubling your water bill? Easy. With just a click, you can order a low-water garden kit that's ready to pick up and plant in May. These pre-designed kits are tailored to Colorado soil, and the simple plant-by-number maps take the guesswork out of buying and planting. Plus, the garden kits can help you save around 1,000 gallons of water compared to a traditional grass lawn (not to mention savings on your water bill). There's a Garden in A Box to fit your budget. **Gardens are on sale now and sell out quickly.** Visit the website in the image below to place your order.

Turf Replacement Program

Are you pouring money onto a lawn you don't use? Could your landscape benefit from more color and texture? Watch your water bill shrink while your landscape grows with the 2024 Turf Replacement Program! Through a partnership with South Metro Water Supply Authority and a grant from the Colorado Water Conservation Board, Pinery Water customers are eligible for discounts on lawn replacement services from Resource Central. Funding is limited, so apply today! Visit ResourceCentral.org/lawn.

Hydrant Flushing

Crews will begin flushing hydrants throughout the District beginning the week of March 18th, Monday through Friday, 7 AM to 3 PM with plans to wrap up around the middle of May. For questions or concerns, please call the District office at 303-841-2797 or email us at information@pinerywater.com.
