

New Landscaping Water Rate Adjustment

The Pinery Water and Wastewater District provides for a reduced water rate for a single billing period to allow new landscaping to be established. Getting your landscape well established early will allow you to better conserve water later. This adjustment applies only to usage above 60,000 gallons in a billing period.

This program is only available for new homes (less than 2 years from Certificate of Occupancy), and it is only available for new landscaping. To apply for this program, please complete the attached form and submit it to our office before the end of the eligible billing period.

Any questions please contact our office: 303-841-2797 ext. 0
Mail or drop off your application to our District office at 5242 Old School House, Parker, CO 80134.
