PINERY PIPELINE

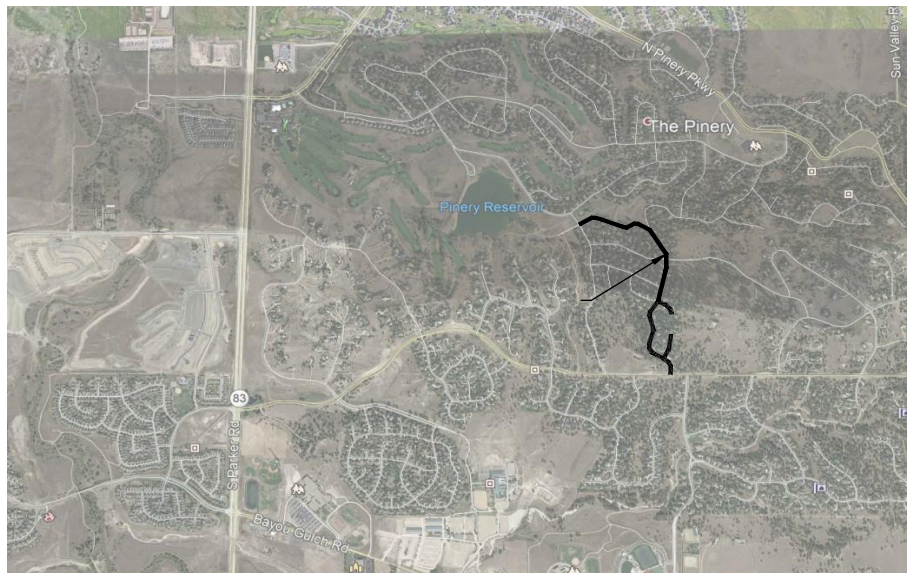

From your Board of Directors

Providing QUALITY WATER FOR LIFE is the mission of your Pinery Water and Wastewater District. We are not only talking about drinking water but also processing wastewater for release into Cherry Creek at the highest possible quality.

In our mission is a commitment to provide excellent service. In order to meet our service goals, we have in place a program to monitor those thousands of valves, manholes, meter pits, fire hydrants, and miles of water and wastewater pipelines in our District. We review the condition of these assets every quarter and develop a plan to upgrade those in poor condition.

One goal of the program is to proactively replace aging waterlines that have been the cause of untimely and expensive emergency repairs. Last year we started a major project on Hillside Way which is complete. The next water line replacement program will be on Irish Pat Murphy Drive, Stetson Court, and Quinlin Court.

This project includes approximately 5,600 linear feet of new 8-inch waterline and the associated appurtenances including valves, air release vaults, hydrants, and 73 residential service lines from the mainline to the meter pits. To minimize disruptions to residents within the project area, the new waterline will be installed in phases while the existing waterline is still in service. When each phase of the new waterline has passed all required testing, it will be put into service and new service lines will be installed and the existing waterline will be abandoned in place.

A contract worth over two million dollars has been awarded to SHM West and construction will begin shortly with plans to be complete by the fall. Our thanks go out to those residents in the area for their patience and understanding as we complete this work. Most of the inconvenience will be on the street, not in the water service to homes.

Best wishes for a warm and safe summer!

**Walt Partridge, Chairman,
Pinery Water and Wastewater District**

Please join us at our District Office for our monthly Board Meetings typically held at 6:00pm on the 3rd Wednesday of each month. However this months meeting has been changed to:

Monday May 20, 2024

Wednesday June 19, 2024

Both meetings will begin at 6:00 PM.
